Proprietor

# C. ED SWEENEY

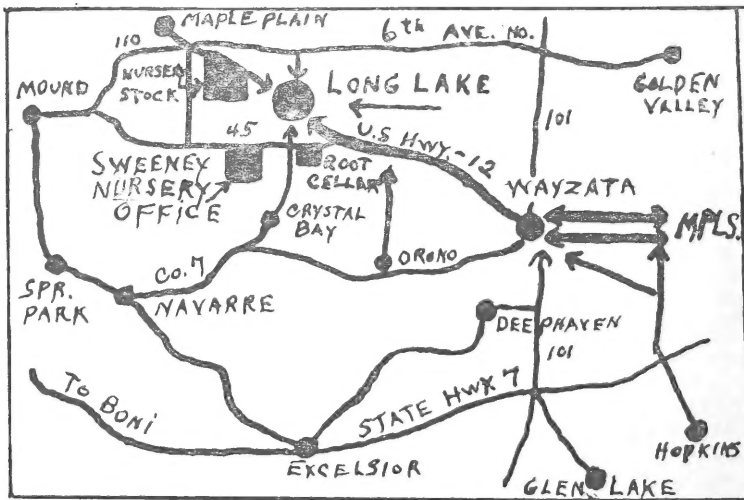

**FOR YOUR LANDSCAPING AND NURSERY STOCK . . .** because C. Ed Sweeney, for the past four years owner and operator of a highly successful landscape and tree service, has now, with the purchase of the stock of **The Daniels Nursery** at Long Lake, also become proprietor of Hennepin County's largest nursery. For years his name has been synonymous with the finest workmanship in all phases of Landscape and Tree Service.

Mr. Sweeney's horticultural career began in 1932 with The Daniels Nursery. After several years in all production and landscape departments he took over the

entire management of their landscape activities — designing and supervising the development of many of the county's show places. In 1948 he set up his own business and today many of his first customers are his best customers, frequently consulting him on the care and further beautification of the finely landscaped grounds that he created for them.

His long experience and record of outstanding landscape developments are assurance for the prospective planter that Mr. Sweeney can give just the right combination of design, stock and workmanship needed for developments of outstanding and lasting beauty.

## YOU'LL LIKE DOING BUSINESS WITH THE C. ED SWEENEY NURSERY

We like to feel that we are "different"—at least we've tried to be. We grow only those varieties of plants which we feel will give a full measure of satisfaction to our customers. We endeavor to grow, in so far as we can, all of the nursery stock that we sell. We pride ourselves on the fine stock we produce and are pleased and proud to show it to our customers.

In the field of landscape planting and services we have at all times maintained a high standard of professional work—resulting in developments that have given lasting satisfaction to our clients.

It is our endeavor to have our sales effort just the kind we'd like to have directed towards ourselves—a helpful and accurate presentation of facts and advantages entirely free from "high pressure," misrepresentation or other unpleasant or unethical approach. You will like to do business with us and you will want to "come again."

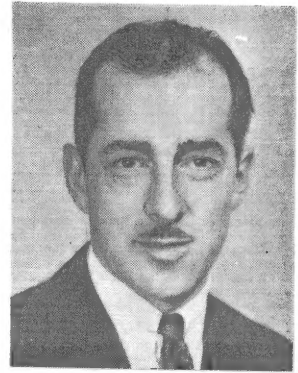

So we think we're different! If you've had experience with certain other nurseries, or "so-called" nurseries and some of the "foot in the door type" of nursery stock salesmen, you'll really enjoy getting acquainted with us. We've spent many, many years developing our present high standing in the business.

**FRANC P. DANIELS, Sr., B.S.A.**

Forty years in one business at one location is a long time—but that has been my pattern of life as founder and proprietor of The Daniels Nursery. As with most fathers, it had been my hope that Franc, Jr. would follow in my footsteps and enable me to gradually taper off in my activities. However, in 1951 he came up with a revolutionary new machine for the mechanical balling of evergreens and other nursery plants. This has been so successful that he must now devote his entire time to its manufacture and sale.

Without his help it seemed best for me to taper off in another manner. So I have sold my nursery stock and leased land and buildings to Mr. C. Ed Sweeney of Long Lake, who will carry on the business. C. Ed is no newcomer to the nursery business. Twenty years ago he started working for us and continued until the fall of 1948, when we helped him to get started in his own business.

So that I can keep an active contact with the business that has been my life work I am staying on with Mr. Sweeney in a consultant and supervisory capacity. I'll be very much on the job here at all times, ready to take care of our customers as I have in the past, but will be relieved of many minor and demanding details of the business.

*Franc Daniels*

## LARGE TREES FOR IMMEDIATE EFFECT

YOU can save up to a generation of growing time by planting large trees—both evergreens and shade trees.

After carefully studying the various types of tree moving equipment in general use we decided that none of them were quite what we wanted and that we should build our own. By combining the best features of these older styles with our own ideas of needed improvements, we designed and built a tree mover which we consider the most efficient and versatile piece of equipment available in this area for moving large trees.

Because of the super-size ball of earth and roots that our machine can handle we can move very large trees with a maximum safety factor. In shade trees we can move trees up to 10 inches in diameter and evergreens of 22 feet or more in height with a minimum of transplanting set back.

We have available a wide assortment of "Immediate Effect" trees and can furnish you with just the tree or trees you need to complete your landscape picture.

MAY WE HAVE AN APPOINTMENT TO DISCUSS YOUR "LARGE TREE" REQUIREMENTS WITH YOU?

## SHADE TREES

(Thru 8-10' measured in height. Larger sizes measured in diameter 1 ft. above ground.)

## Evergreen and Shade Tree "Seconds"

At reductions of  $\frac{1}{4}$  to  $\frac{1}{2}$

### Seconds . . . That Should Come First In Your Consideration

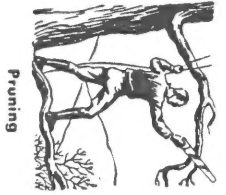

We have many, many thousands of fine evergreens and shade trees in our nursery. Every year we find that a certain small percentage of these trees do not measure up to the high standard of our "Number One" trees.

These we call "Seconds" because for some reason they did not develop as perfectly as most of their block, and because they show a slight crookedness, lack of branch balance, or other minor imperfection. As far as vim, vigor and vitality and their ability to make satisfactory growth are concerned they are just as good as our Number One trees. There is nothing inherently wrong with them and they usually grow into perfect trees after a season or two of corrective care.

You'll be delighted with them and what their price tag says.

We offer these trees at reductions of from  $\frac{1}{4}$  to  $\frac{1}{2}$  of their regular price. (Altho these trees have the same vigor and ability to grow as our Number One trees, their low price does not permit us to give them our usual guarantee.)

## ANNUALS

### FOR ADDED COLOR IN YOUR PERENNIAL FLOWER GARDEN

In addition to our complete assortment of hardy, out-door-wintering perennials and other plants, we are prepared to supply you with a complete line of the better varieties of annuals.

For continuous bloom and added life and color you'll find our sturdy annual flowering plants just what you need.

And for the vegetable garden we'll have the top varieties of Tomatoes, Cabbage, Peppers and other vegetable plants to furnish you with summer and fall budget saving products.

## Headquarters for Quantity And Quality in Perennials

### WE OFFER YOU:

.....A wide selection of hardy, field grown and potted perennials that will give you the quick effectiveness that you want in your garden.

.....Potted plants for your convenience, large hardy plants—with no transplanting shock—and you get ALL the roots.

.....The benefit of Mr. Sweeney's long and wide experience in developing outstanding perennial gardens. Correct design of a flower bed is an art in itself—an art that combines a wide knowledge of the plants themselves together with a thorough understanding of color harmonies, season of bloom, heights and other factors that make up the component parts of a truly beautiful garden that will blend into and enhance your entire landscape development.

.....Our carefully selected and blended ingredients are mixed to make the finest of potting soils. This means that you are assured of a better plant and a root development that will keep it a better plant.

**MR. SWEENEY'S LONG EXPERIENCE IN DESIGNING OUTSTANDING GARDENS ON SHOW PLACES IN THE MINNETONKA AREA IS PROOF POSITIVE THAT HE CAN BRING TO YOUR HOME GROUNDS JUST THE "DREAM GARDEN" THAT YOU HAVE LONGED FOR.**

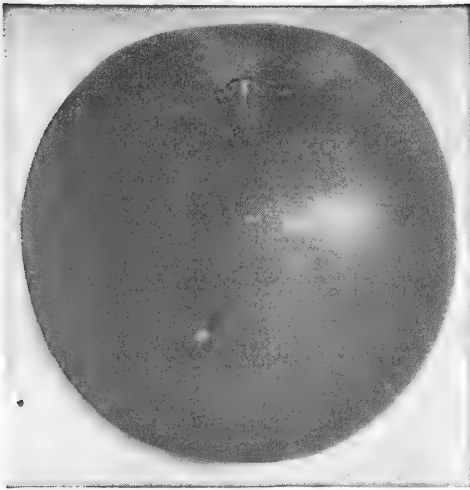

**WHY NOT LET MR. SWEENEY PERSONALLY DESIGN AND LAY OUT YOUR OWN FLOWER GARDEN?**

---

### FENCES

We are prepared to install attractive and durable fences of a wide range of types

May we help you with your fencing problems?

## HARDY APPLES

We feel that we know apples from every standpoint. Not only have we had extensive experience in the propagating and growing of the young trees, but we have also had many years of experience in commercial apple orchard production and marketing. We can give you invaluable assistance in the selection of your varieties, whether your needs are one or one hundred.

Of the many varieties grown in Minnesota and adjacent territory we have narrowed our list to those we feel are the outstanding ones for this territory. May we have the pleasure of assisting you in your selection?

## "CAN'T WAITERS"

**For the Man who's in a hurry and Can't Wait)**

Are you in a hurry to have your trees bear? If so, the C. Ed Sweeney Nursery offers you the "Can't Waiter" Fruit Trees. These trees are developed by taking the regular planting size trees and transplanting them to grow on for three, four or more years.

With this additional growing time the trees gain greatly in productive maturity, in caliper, in height, and in branch and root development. Many of them have already born fruit right in the nursery row. With the transplanting and extra care we have given them they transplant as successfully and as safely as do younger trees.

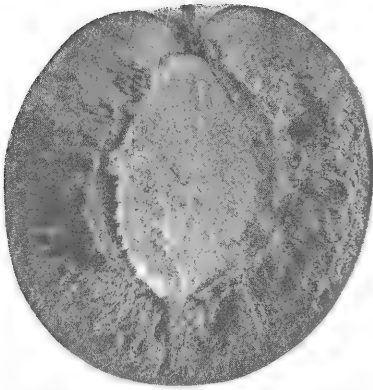

Our "Can't Waiters" are available in practically all the varieties we list elsewhere in the regular sizes. They are priced at only \$3.00 to \$10.00 each, with a few in larger sizes.

For those who are really in a hurry, we suggest that the "Can't Waiters" be balled and burlapped—just like an evergreen. This is well worth the slight additional cost as transplanting shock is reduced to a minimum and you get a producing tree much sooner.

### DO YOU WANT TO DIG YOUR OWN "CAN'T WAITERS"? APPLES, PEARS, PLUM AND CHERRIES

For those who want to have the fun of selecting and digging their own "Can't Waiters" we've got a real deal! YOU CAN DIG YOUR OWN — YOUR PICK OF THE FIELDS — FOR ONLY \$5.00 EACH. Be sure to bring your own spades, and burlap or other adequate material for protecting the roots from drying out until you get them home. They should be dug early in the spring—before they start to leaf out — or late in the fall when dormant. Naturally, there is no guarantee on these self-dug trees.

## QUALITY PLUMS

Big as Hen's Eggs. Tree ripened quality right in your own yard!

Yes, large delicious plums for canning and eating fresh are now a reality in Minnesota. The recent developments of Government Experimental stations have given us varieties that bear a high quality fruit. By selecting early, medium and late varieties you can extend your enjoyment of the fresh fruit up to eight weeks. Let us help you in this selection.

We know you'll like the following list of plums.

PLUM PRICES	Each
Extra Large (Bearing age) .....	\$1.65
Large .....	1.50

### PLUM VARIETIES

Ember	Pipestone	Underwood
Monitor	Superior	Toka (Pol.)

## HARDY PEARS

Pears are almost a must in your fruit tree planting. We list the three Minnesota pears which we consider best. The Bantam, Parker and Patten fill out the season nicely from early to late. They give you fine quality fruit that compares favorably with "shipped in" fruit. You will find them as easy to grow as apples and just as safe in adapted sections. Bantam bears at a younger age than the others.

PEAR PRICES	Each
Extra Large .....	\$1.85

### VARIETIES

↘ Bantam	↘ Parker	↘ Patten
----------	----------	----------

## HARDY CHERRIES

Your fruit planting is not complete without Sweeney's Cherry Trees. With an assortment of these trees you can have finest of cherries for eating and for canning. These hardy varieties are prolific bearers of large, delicious fruit.

CHERRY PRICES	Each
Bearing Age .....	\$1.65
Large .....	1.50

### CHERRY VARIETIES

↘ Opata	↘ Oka	↘ Sapa	↘ Compass

## "VEST POCKET ORCHARD" APPLE TREES

### HARDY NORTHERN GROWN — EARLY BEARING THREE TO EIGHT VARIETIES ON ONE TREE

Limited space? The "Vest Pocket Orchard" apple tree is the answer to your problem. These trees are far more than a novelty! They are a completely practical method of growing several varieties of apples on one tree. By a careful, precise process of grafting, we have developed trees which will bear three to eight varieties each. We have used only the best varieties such as Beacon, Minjon, Fireside, Wealthy, Dolgo, Prairie Spy and Daniels Red Duchess. Besides the completely practical side of these trees, you'll have a lot of fun with them. Supply is limited. Order early!

## SMALL FRUITS AND GRAPES

We furnish only the best in fruit plants. Don't be satisfied with less. The quality of the plants you buy will determine the quality and quantity of the fruit you harvest. There is no compromise.

### FOR THE TINY SPOT

How'd you like a real strawberry garden in a 6-ft. space? Our new "STRAWBERRY PYRAMIDS" accommodate 50 to 75 plants . . . and do they produce!

## How to Order from C. ED SWEENEY NURSERY

(—and that's the best way to get the best Nursery Stock)

**WHEN TO ORDER**—as early as possible. "First come, first served," is the rule. Early ordering is a big help to us, and frequently late orders cannot be filled in full. Why not send your order in now! It will be carefully booked and shipped to you at the time you want it.

**PRICES**—Prices in this catalog are guaranteed only for orders in the spring of 1953 and annul and supercede all prices quoted previously. ALL PRICES ARE F.O.B. Long Lake, Minnesota, unless otherwise specified. (See "Method of Shipping.")

**TERMS**—This year we offer a special discount of 2% for cash with order. Our business and moderate price schedule have been built on a cash with order policy, and we prefer to have your orders accompanied by cash in full. This plan enables us to keep down costs and to maintain low prices. If C.O.D. shipments are preferred, 25 percent must accompany the order, balance C.O.D. ON OUT OF TOWN CHECKS PLEASE ADD 5c FOR BANK "FLOAT" CHARGE.

**IN LANDSCAPE PLANTINGS** payment is expected immediately upon completion of the work. However, if desired, we are always glad to open book accounts for clients of established credit. All accounts are due not later than the 10th of the month following date of purchase.

**METHOD OF SHIPPING**—Express is safest and generally the best way to ship plants. Many small orders may be shipped satisfactorily by parcel post. If stock is to be shipped by Parcel Post please add 20% for Postage and packing, otherwise we ship C.O.D. for postage and packing costs. Express shipments are shipped express charges collect, but 10% must be added for special packing for express shipment.

Delivery facilities are available in Minneapolis, its suburbs and the Minnetonka area. In our landscape plantings, stock is delivered at the time we do the planting.

## Planting Service

We invite those who wish to have their stock planted to avail themselves of the services of our skilled horticulturists. We can furnish these expert workmen in the Twin City area at the following rates: Evergreens at 40 percent of the cost of the stock, and other stock at 60 percent of the cost of the stock, except hedges which will be planted at 35 cents per foot. For the clients' protection our workmen are fully covered by Workmen's Compensation Insurance.

## Sweeney's Liberal Guarantee

Plants (except strawberries or specially priced items) failing to grow the first season after planting will be resupplied once at one-half the original cost of the stock provided that such failure to grow is not due to neglect or improper handling on the part of the purchaser and provided that replacement claim reaches us prior to October 1st of the fall following planting.
